

# Assessment 1 Submission Guide

## 1. Important points

- Assessment 1 must be submitted by **11:55 pm on Friday the 11th December 2015**
- Late submission is possible up to **11:55 pm on Friday the 18th December 2015**. However, assessments handed in late can only achieve a maximum grade of **40%**
- Assessment 1 is worth **50%** of your final mark

## 2. Pre submission checks

### 2.1 Learning log

---

You should review your learning log and check that it clearly demonstrates that you understand the key concepts covered each week.

Make sure you demonstrate your understanding. For example, let's say we covered "HTML, attributes and elements" one week.

**Don't write things like** "This week I learnt HTML, attributes and elements". This does not show any understanding.

Instead, you'd need to cover:

- What is HTML and what is it used for
- What are elements and how are they used
- What is the purpose of attributes

Make sure you touch on the key concepts each week:

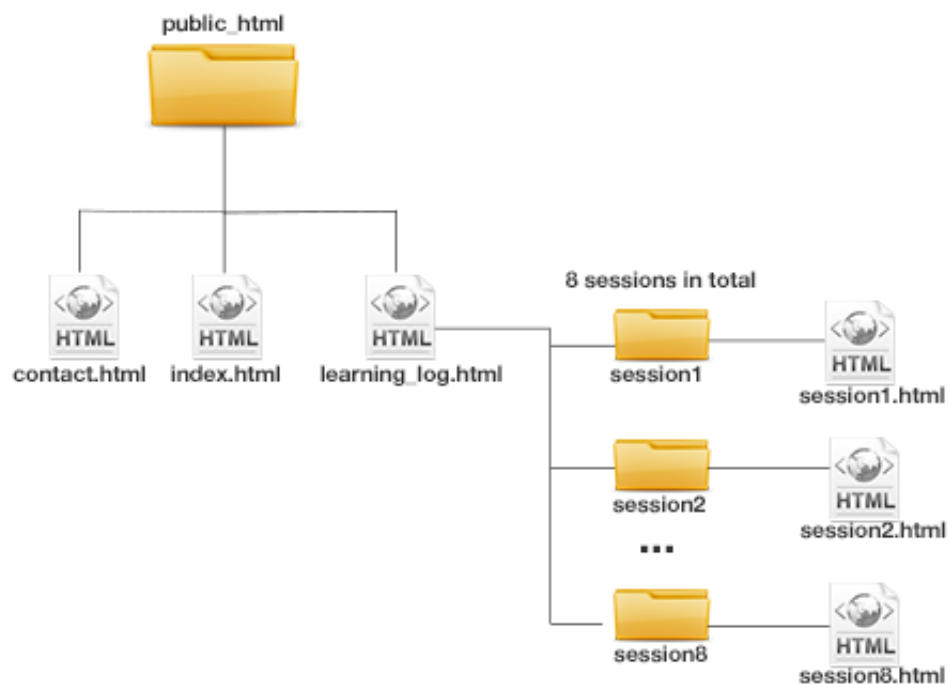

Session	Key Concepts
1	HTML, Attributes, Elements, Headings, <code>&lt;title&gt;</code> tag, Links, Images
2	Web Standards (W3C) , HTML validation, Table elements , Table attributes
3	Block level and inline elements, <code>&lt;div&gt;</code> tag, <code>&lt;span&gt;</code> tag, Class and id attributes, CSS, different types of styles (internal, external, inline)
4	Pseudo elements and classes, Changing elements from inline to block using CSS display property, Margins, Border and Padding, Float layout
5	Assessment1 common errors (validation,file names,links, formatting and indentation)
6	Lists for navigation, CSS3 gradient and radius, Semantic HTML5
7	Forms , HTML5 form validation
8	Styles for forms

## Submission guidance

The submission of your work requires a two step process. **Important**, you must complete both steps in order to successfully submit your assessment

### 1) Make sure the latest version of your work is uploaded to the edward2 server

Using an FTP client such as filezilla, you'll need to upload your work to the edward2 server. Remember to place your files into the `public_html` directory. Also, test your site and ensure everything still works (links, images and layout). Your edward2 folder structure will roughly resemble the following diagram:

## 2) Upload a .ZIP file of your work to myCourse

ZIP up **all** of the files you uploaded to edward2. Submit the ZIP using the "**Assessment1 - Hand In**" link on the myCourse Internet Tech page.

### Assessment 1

-  Assessment 1
-  Assessment 1 - Supporting Files
-  Assessment 1 - Hand In

Follow the instruction to submit your assessment.

### IMPORTANT

It's important you make sure your work has been submitted. If you click on the "Assessment1 - Hand In" link again, you should see the following message:

## Submission status

Submission status	Submitted for grading
Grading status	Not graded
Due date	Friday, 11 December 2015, 11:55 PM
Time remaining	22 days 9 hours
Last modified	Thursday, 19 November 2015, 2:21 PM
